

Team and Responsibilities

Replace the placeholders with each member's name and TP number before submission.

Member	Name	TP number	Main role
Member 1	<i>to be filled in</i>	TP000000	Project lead: architecture, authentication, security review, deployment
Member 2	<i>to be filled in</i>	TP000000	Course catalogue, search, enrolment, student dashboard
Member 3	<i>to be filled in</i>	TP000000	Learning resources, uploads, quizzes, grading, progress tracking
Member 4	<i>to be filled in</i>	TP000000	Administration area, testing, documentation, presentation site

1. Responsibility matrix

R = responsible (owns the work and its quality), S = supports (reviews, helps, tests).

Area	Member 1	Member 2	Member 3	Member 4
Requirements, proposal and schedule	R	S	S	S
Architecture, solution structure, configuration	R	S	S	S
Database model, migrations, ERD	S	S	R	S
Authentication, roles, profile and account pages	R	S	–	S
Home, About, Contact and course catalogue	S	R	–	S
Course details and enrolment	S	R	S	–
Student dashboard and My Courses	–	R	S	S
Lessons, file storage and uploads	S	–	R	S
Quizzes, grading and results	–	S	R	S
Progress calculation	–	S	R	–
Admin area: courses, categories, resources	–	S	S	R
Admin area: quizzes, users, enrolments, messages, dashboard	S	–	S	R
Design system, responsive layout, accessibility	S	R	S	S
Seed catalogue, lesson content and media	S	S	R	S
Security review and security tests	R	S	S	S
Automated tests and CI	S	S	S	R
Deployment to Railway and Firebase Hosting	R	–	–	S
Report, documentation and viva preparation	S	S	S	R

2. Owned files

Paths are relative to the repository root. Owners review every pull request that touches their files.

Member 1 – architecture, authentication, security, deployment

- `src/LearnHub/Program.cs` , `src/LearnHub/appsettings.json`
- `src/LearnHub/Infrastructure/ServiceCollectionExtensions.cs` ,
`ApplicationBuilderExtensions.cs` , `SecurityHeadersMiddleware.cs` , `Options.cs` ,
`ClaimsPrincipalExtensions.cs` , `LearnHubClaimsPrincipalFactory.cs`
- `src/LearnHub/Controllers/AccountController.cs` , `ProfileController.cs` , `ErrorController.cs`
- `src/LearnHub/ViewModels/Account/` , `src/LearnHub/Views/Account/` ,
`src/LearnHub/Views/Profile/`
- `src/LearnHub/Data/ApplicationDbContext.cs` , `DatabaseServiceCollectionExtensions.cs` ,
`Data/Seed/DatabaseInitializer.cs`
- `.github/workflows/ci.yml` , `ef-migrations.yml` , `Dockerfile` , `railway.json` , `firebase.json` ,
`.firebaserc` , `scripts/`
- Documentation: `ARCHITECTURE.md` , `SECURITY.md` , `DEPLOYMENT.md` , `PROPOSAL.md`

Member 2 – catalogue, enrolment, student dashboard

- `src/LearnHub/Controllers/HomeController.cs` , `CoursesController.cs` , `StudentController.cs`
- `src/LearnHub/Services/CourseCatalogService.cs` , `CategoryService.cs` , `EnrollmentService.cs` ,
`DashboardService.cs` , `ContactService.cs` , `CourseProjections.cs` , `SearchPattern.cs`
- `src/LearnHub/ViewModels/Public/` , `src/LearnHub/Views/Home/` , `src/LearnHub/Views/Courses/` ,
`src/LearnHub/Views/Student/`
- `src/LearnHub/Views/Shared/_Layout.cshtml` , `_CourseCard.cshtml` , `_Pagination.cshtml`
- `src/LearnHub/wwwroot/css/site.css` (design system),
`src/LearnHub/Infrastructure/InterchangeMap.cs`
- Documentation: `USE_CASES.md` , `NAVIGATION.md`

Member 3 – lessons, uploads, quizzes, progress

- `src/LearnHub/Models/` and `src/LearnHub/Data/Configurations/` , `src/LearnHub/Data/Migrations/`
- `src/LearnHub/Controllers/ResourcesController.cs` , `QuizzesController.cs`
- `src/LearnHub/Services/LearningResourceService.cs` , `QuizService.cs` , `QuizGrader.cs` ,
`ProgressService.cs`
- `src/LearnHub/Services/Storage/` (upload rules and file storage), `src/LearnHub/Services/Content/`
(video parser, lesson renderer)
- `src/LearnHub/ViewModels/Learning/` , `src/LearnHub/Views/Resources/` ,
`src/LearnHub/Views/Quizzes/`
- `src/LearnHub/Data/Seed/DemoCatalog*.cs` , `DemoDataSeeder.cs` , `Data/Seed/Files/` ,
`wwwroot/images/courses/`
- Documentation: `ERD.md` , `FLOWCHARTS.md`

Member 4 – administration, testing, documentation, presentation site

- `src/LearnHub/Areas/Admin/` (controllers and views), `src/LearnHub/wwwroot/css/admin.css`
- `src/LearnHub/Services/CourseManagementService.cs`, `ResourceManagementService.cs`, `QuizManagementService.cs`, `QuestionManagementService.cs`, `UserManagementService.cs`, `LookupService.cs`
- `src/LearnHub/ViewModels/Admin/`, `src/LearnHub/wwwroot/js/site.js`
- `tests/LearnHub.Tests/`, `tests/e2e/`
- `FirebaseLanding/` (the presentation site, deployed to Firebase Hosting) and `docs/` (the project documentation)
- Documentation: `TESTING.md`, `WIREFRAMES.md`, `REPORT_NOTES.md`, `VIVA.md`, `TEAM.md`, `GIT_WORKFLOW.md`, `REQUIREMENT_TRACEABILITY.md`, `README.md`

3. How the team works

Practice	Agreement
Planning	A short planning meeting each Monday; tasks are GitHub issues labelled by area and assigned to one owner
Daily updates	A message in the group chat: done yesterday, doing today, blocked by
Branches and pull requests	One short-lived branch per task; pull request with a description and screenshots for UI changes; at least one reviewer; merge only when CI is green (see GIT_WORKFLOW.md)
Definition of done	Code builds, tests added or updated, all CI jobs pass, no secrets committed, documentation updated, reviewed
Code review focus	Correct authorisation, validation on the server, no entity binding, clear names, accessible markup
Shared files	<code>site.css</code> , <code>Program.cs</code> and the EF Core model change only through small, reviewed pull requests to avoid conflicts
Viva	Every member can explain the whole architecture and at least one feature outside their own area

4. Individual contribution statements

Each member completes a short statement for the report (about 100–150 words): what they built, the hardest problem they solved, one thing they would improve, and links to representative commits or pull requests.

Member	Statement
Member 1	<i>to be completed by the member</i>
Member 2	<i>to be completed by the member</i>
Member 3	<i>to be completed by the member</i>
Member 4	<i>to be completed by the member</i>

5. Peer assessment

Criterion	Member 1	Member 2	Member 3	Member 4
Contribution to code (1–5)				
Contribution to documentation (1–5)				
Communication and reliability (1–5)				
Agreed share of the group mark (%)
